Kaeto Oruche

Email Marketing Specialist · Lifecycle & CRM Systems · Regulated Industries

Kyrenia, Cyprus · Remote · kaetooruche@gmail.com · linkedin.com/in/kaeto-oruche · kaeto-oruche-email-marketing.netlify.app · English (fluent) · Turkish (basic)

SUMMARY

Email marketing specialist and MPharm graduate. Built and run a full Brevo-based email marketing function from scratch for a financial advisory company serving a German-market audience: roughly 230 campaigns, 91,000+ emails delivered, spam complaints held under 0.02%. Cut the monthly unsubscribe rate from about 0.6% to about 0.2% while send volume more than doubled. Designs lifecycle models, lead scoring and list hygiene for regulated, trust-sensitive audiences — and brings the same record-accuracy discipline from two and a half years in community pharmacy.

SKILLS

Strategy: Email Marketing Strategy · Lifecycle Architecture · Lead Scoring & Qualification · Audience Segmentation · A/B Testing · Re-engagement Strategy

Execution: Marketing Automation (Brevo) · HTML Email Template Editing · Drip & Nurture Sequences · List Management & Hygiene · Deliverability Management · UTM Tracking & Attribution

Analytics: Campaign Performance Analysis · Engagement Tracking · Metric Interpretation

EXPERIENCE

Email Marketing Specialist

A financial advisory company serving a German-market audience · Remote · January 2026 – Present

- Built and run the email marketing function end to end as sole owner, on Brevo, since January 2026
- Sent 91,000+ delivered emails across roughly 230 campaigns (January–August 2026); kept spam complaints under 0.02%
- Cut the monthly unsubscribe rate from about 0.6% in January to about 0.2% by summer, while monthly send volume more than doubled
- Designed a lifecycle state model with precedence logic and a five-tier engagement ladder based on click recency rather than opens, since Apple Mail Privacy Protection inflates open data
- Audited 216 past campaigns and built a three-tier content framework and a set of content angles from the findings
- Rebuilt lead scoring from a 40-point to a 20-point scale, using 200+ historical campaigns as the evidence base
- Cleaned a roughly 85,000-contact database with MX pre-filtering; isolated 1,564 orphaned records into nine remediation files
- Built 41 contact lists and 11 lead magnet sequences
- Built a UTM tracking structure covering 750+ URLs across 5 platforms
- Ran a deliverability audit that found missing DKIM and SPF records and a poorly-reputed shared IP
- Write and maintain an HTML email standard; edit email template HTML directly
- Run A/B tests on subject lines and content to inform messaging decisions

EDUCATION

Master of Pharmacy (MPharm), 5-year integrated programme

Eastern Mediterranean University, Famagusta, Cyprus · September 2018 – July 2024

EARLIER EXPERIENCE

Community Pharmacy — Pharmacy Assistant & MPharm Placement Intern

Famagusta, Cyprus · June 2023 – November 2025 (about 2.5 years)

Regulated recordkeeping, accurate data entry and patient-facing communication under strict compliance standards — the same discipline now applied to lifecycle email systems.
